### Cinema Libre's Ukraine On Fire

Cinema Libre has tabbed July 18 as the street date for both DVD and Blu-ray edition of producer Igor Lopatonok's *Ukraine on Fire*.

Most Americans can't find Ukraine on a map and most can't quite understand what it is all about, this thing with Russia... is it part of Russia? It is confusing as the country has been

schizophrenic in nature since at least World War II, and certainly earlier.

## Mill Creek Expands August Release Slate

Mill Creek Entertainment was back this past week with addition DVD and Blu-ray priced-to-collect releases that will be heading to retail in August.

Being released as both DVD and Blu-ray editions on Aug. 15 is director John Putch's 2005 epic mini-series adaptation of Paul Gallico's ship disaster thriller, *The Poseidon Adventure*.

Instead of a tidal wave capsizing the massive S.S. Poseidon, a terrorist organization has planted a bomb that blows a hole in the side of the ship on New Year's Eve. The flooding eventually causes the ship to go turtle.

Steve Guttenberg stars as Richard Clarke, who is traveling with his family from Cape Town to Sydney, and having an affair with a member of the crew (played by Nathalie Boltt) at the same time. He is discovered by his wife Rachel (Alexa Hamilton) and kicked out of the family stateroom.

Meanwhile, Clarke's daughter has her eyes on the ship's doctor (Am-

## VCI Entertainment Unearths *Captain Fury*!

Before *Quigley Down Under* ... long before! Before World War II even, there was producer/director Hal Roach's 1939 adventure tale of English and Irish prisoners sent Down Under to serve out their sentences in exile. Australia of the 1840s ... a wild, near lawless frontier!

The film was titled *Captain Fury* and it starred the likes of Brian Aherne (nominated the same year for Best Supporting Actor in *Juarez*) as Captain Fury (an Irish rebel banished for his revolutionary ways), Victor McLaglen as the scalawag Blackie (a heart of gold, but prone to thievery and other mischief), June Lang as the lovely Jeanette (who catches Fury's eye) and

## Cadiz Music's Anarchy Arrives Aug. 4

Cadiz Music, with sales and distribution expertise provided by MVD Entertainment Group, will be bringing a double-disc DVD edition of documentary filmmaker Phil Strongman's *Anarchy! McLaren Westwood Gang*.

The street date will be Friday, August 4.

Punk Rock some 40-years on and the story of a most unlikely member of the vanguard of that music revolution is the subject of Strongman's film. The individual in question is Malcolm McLaren, a self-style promoter (among other eclectic pursuits) who had the lucky happenstance of being in the right place at the right time to unite Johnny Rotten and Sid Vicious and propel the Sex Pistols to stardom in 1977. McLaren's promotional stunt during the Silver Jubilee celebration of Queen Elizabeth II's reign got

## AGFA's Effects On Blu-ray, Aug. 22

The American Genre Film Archive (AGFA), with sales and distribution support provided by MVD Entertainment Group, has unearthed director Dusty Nelson's circa 1978 film adaptation of William H. Mooney's novel titled, "Snuff" — which was retitled for the screen as *Effects* — for a 4K restoration from the only 35mm theatrical print known to be in existence.

The Blu-ray debut will take place on Aug. 22.

Director George Romero had wrapped both *Martin* and *Dawn of the Dead* in Pittsburgh and members of his film crews decided to try their hand at producing a genre film of

# Anarchy: McLaren Westwood Gang

'Anarchy! McLaren Westwood Gang' is being released to celebrate the 40th anniversary of the birth of Punk.

'Anarchy! McLaren Westwood Gang' is being released to celebrate the 40th anniversary of the birth of Punk - director Phil Strongman was at the heart of the punk movement chronicling the period in the book, 'Pretty Vacant - A History Of UK Punk'. Described as 'Fascinating' by Wendy Ide in *The Observer*, 'Interesting...shrewd' by Peter Bradshaw in *The Guardian*. Mike Wearing, producer of 'Edge of Darkness', called the film 'the Apocalypse Now of art documentaries', while Kieran Cashell of LIT hailed it as 'a masterpiece'. However, 'Anarchy! McLaren Westwood Gang' is about so much more than the short lived punk phenomenon and explores the notion of Malcolm McLaren as the great architect of British Punk. The film includes candid interviews with McLaren, some stunning unseen footage about his childhood, his 1960's activism, meeting with Vivienne Westwood, the Kings Road shops, and focuses on his key role in the Punk 'anti-fashion' and the Sex Pistols and many others. Three films in one: it's a history of European Anarchism; a biog of McLaren and a compelling exposé of the real birth of the Sex Pistols (with contributions from The Clash, 101ers, Bow Wow Wow, Adam Ant, Boy George, Don Letts, Tony Wilson, Tracey Emin, Stuart Christie, Nick Egan, Vivienne Westwood). 'Anarchy! McLaren Westwood Gang' is an authentic and remarkable document of a febrile moment in time that left such a long shadow over modern culture. A 2xDVD set featuring the film and also some great extra features, including the last ever filmed interview with McLaren. Additionally the set includes a 7 inch single contacting Malcolm McLaren speaking over music, a badge and a booklet with an with essay written by Flexipop! founder Barry Cain. Also included are a postcard signed by director Phil Strongman and a poster. This edition of 'Anarchy! McLaren Westwood Gang' comes in a box with lift off lid featuring all original artwork by Jonny Halifax.

# ONE WEEK AND A DAY

A FILM BY  
ASAPH POLONSKY

As Eyal finishes the traditional Jewish week of mourning for his late son, his wife Vicki urges him to return to their routine - but just because the shiva has ended doesn't mean it's life as usual.

Each coping in their own way, Eyal and Vicki both attempt to regain a sense of control over their future, as they struggle to discover that there are still things in life worth living for. Asaph Polonsky's debut feature **ONE WEEK AND A DAY** provides a nuanced perspective on loss that is humorous, touching, and above all else, life-affirming.

Thousands of miles away from civilization, Midway Atoll is in one of the most remote places on earth. And yet it's become ground zero for The Great Pacific Garbage Patch, siphoning plastics from three distant continents. In **PLASTIC PARADISE**, journalist/filmmaker Angela Sun travels on a personal journey of discovery to uncover this mysterious phenomenon. Along the way she meets scientists, researchers, influencers, and volunteers who shed light on the effects of our rabid plastic consumption and learns the problem is more insidious than we could have ever imagined.

*Fury Continued* George Zucco as the evil land baron, Arnold Trist (think: Alan Rickman's Elliot Marston character in *Quigley Down Under*).

Other familiar faces in this Australian story are Douglass Dumbrille as Trist's enforcer, John Carradine as one of Fury's fellow prisoners, Paul Lukas as Jeanette's wishy-washy father and Charles "Ming the Merciless" Middleton as Mergon, another one of Trist's men. An entirely English and American cast starring in an Australian frontier saga that was film on location in ... Malibu and Chatsworth!!!

Word arrived this week that the wait is finally over for this Hal Roach's Oscar-nominated *Captain Fury* (for Best Art Direction) as it will be making its DVD debut on Aug. 1 courtesy of VCI Entertainment!

*Week Continued* Festival in October of last year, followed by the Chicago International Film Festival a week later. This release pattern continued through April of this year (piling up awards along the way and critical praise), before an arthouse theatrical launch was put in place at the end of April.

The ARR works out to 130 days.

Based loosely on events that unfolded over the years in Polonsky's own life — his experiences with death and the tradition of Shiva (seven days of mourning associated with the passing of a family member) — *One Week and a Day* tells the story of Eyal (Shai Avivi — *Atomic Falafal, Epilogue*) and his wife, Vicky (Evgenia Dodina — *The Attack, Adam Resurrected*), as they mourn the death of their adult son, Ronnie (health issues related to cancer).

Vicky, at the end of this period, makes her best efforts to return to a normal routine. It is difficult to bury a child, but life goes on.

Eyal, on the other hand, has a different approach to the transition. A token of his son's memory turns into a mission to retrieve a blanket from the hospice, which turns into a medical marijuana "experience" with Ronnie's goofy friend, Zooler (Tomer Kapon — *A Tale of Love and Darkness, Hostages*), and then Eyal suddenly realizes that burial plots next to his son's resting place might be snapped up by strangers ... that's a mission too! Yes, life goes on!!

Bonus features include commentary from filmmaker Asaph Polonsky, a video session with Polonsky at AFI, the short film *In Bed at 10 P.M.*, the featurette titled "Tomer Kapon "Zooler" Air Guitar Rehearsal" and the American Pavilion panel discussion featuring Polonsky and Kapon.

*One Week and a Day* is presented in Hebrew with English subtitles.

### Anarchy Continued

#### the ball rolling!

Within two years the Sex Pistols would go from obscurity to stardom to the death of Sid Vicious (and Nancy would follow). Legal battles would drag on for another decade, but McLaren was on to something and guided more groups to stardom.

Of note, The Criterion Collection has a new 4K restoration of director Alex Cox's *Sid & Nancy* prepped for release as DVD and Blu-ray edition on Aug. 22, so Cadiz and MVD Entertainment Group are spot-on in their time here).

The other half of Strongman's film title, "Westwood," refers to Vivienne Westwood, McLaren's partner and successful fashion designer, who saw the future of Punk Rock and rode the wave to international stardom.

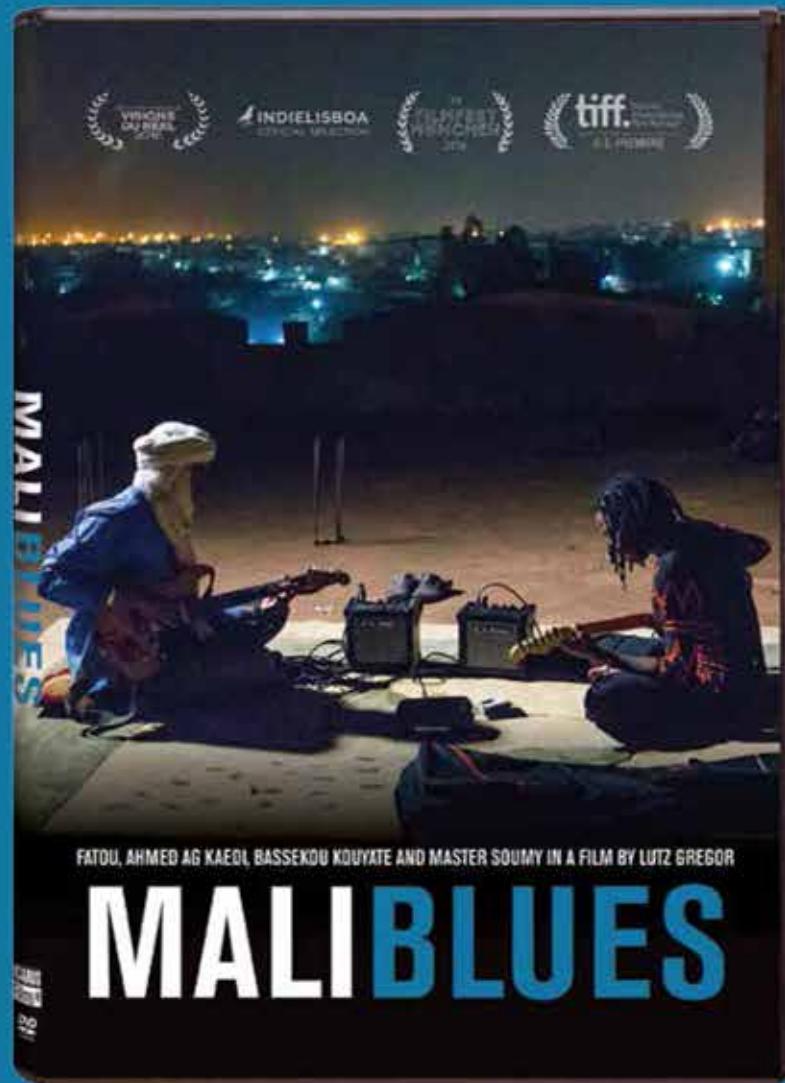

Strongman's presentation of *Anarchy! McLaren Westwood Gang* blends his footage from the period featuring McLaren, which are combined with interviews (reminiscences) with the likes of Adam Ant, Boy George, writer Stuart Christie and visual design artist Nick Egan. Strongman pack some surreal interludes in the proceedings as well ... strange, but then so was the late Malcolm McLaren!

## MALI BLUES

The West African country of Mali is a birthplace of the blues, a musical tradition later carried by the transatlantic slave trade to America's cotton fields. Yet today, the music and musicians of Mali are in grave danger. As fundamentalist Islam and sharia law become more widespread, dance and secular music are prohibited, musical instruments are destroyed, and musicians are forced to flee their homeland.

The vibrant documentary *MALI BLUES* follows four artists: **Fatoumata "Fatou" Diawara** is a rising star on the global pop scene (memorably featured in Abderrahmane Sissako's acclaimed drama *Timbuktu*). **Bassekou Kouyaté** is a celebrated ngoni player and traditional griot. **Master Soumby** is a young street rapper influenced by hip-hop. **Ahmed Ag Kaedi** is the bandleader and a guitar virtuoso. Each combines rich musical traditions with contemporary influences, using their music to stand up to extremism and inspire tolerance and peace.

## Effects

A new 4K transfer of this snuff-fueled nightmare starring Tom Savini and Joe Pilato!

Cobbled together with loose change by George Romero's friends, **EFFECTS** is a mesmerizing D.I.Y. nightmare that no one talks about, but everyone should. A group of coked-up filmmakers -- including Tom "DAWN OF THE DEAD" Savini, Joe "DAY OF THE DEAD" Pilato, and John "TALES FROM THE DARKSIDE: THE MOVIE" Harrison -- gather in Pittsburgh to make a slasher. As filming begins and "accidents" happen, it's clear that something isn't right. And no one can be trusted. Landing somewhere between SNUFF and a student film by John Carpenter, **EFFECTS** is a meta-enhanced takedown on the philosophy of horror that doubles as a sleazy and terrifying movie on its own.

ber Sainsbury and C. Thomas Howell respectively) ... when the ship flips over, Clarke, the doctor, Clarke's daughter and others decide to abandon the "safety" of the ship's main ballroom and seek rescue by working their way up through the bottom of the ship (it's upside down, of course). Those who refuse to listen to Clarke's pleadings to join them in their quest find a watery grave awaits.

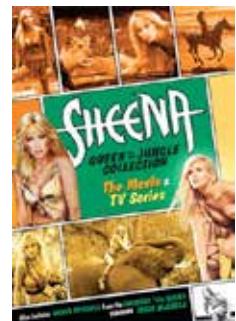

The second half of the adventure deals with the escape, a potential terrorist among the group of survivors and the ever-rising water levels. Time is against them!

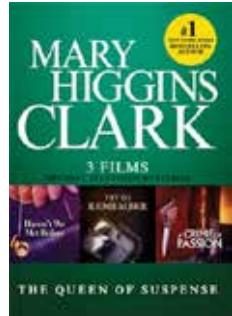

Also on the Aug. 15 release schedule from Mill Creek Entertainment is the *Sheena Queen of the Jungle Collection*, a six-disc DVD collection. Included in the set is director John Guillermin's 1984 theatrical release of *Sheena*,

For fans of mystery writer Mary Higgins Clark, Mill Creek Entertainment has a three-film set on DVD titled *Mary Higgins Clark: The Queen of Suspense - 3 Films, Original Television Mysteries* that will also be available on Aug. 15. Included in the set is *Haven't We Met Before*, starring Nicollette Sheridan as a law student who is being stalked by a demented individual who firmly believes that she was his lover in a previous life ... Lastly, *A Crime of Passion* stars Cynthia Gibb as a newly married businesswoman (half-owner of a winery) who finds herself involved in a murder mystery. Is the murderer her husband? Could the murderer be her business partner? Or is there someone else involved? It will keep you guessing right up until the end!

*Fire Continued*

To understand this, you must know that Ukraine has been at the crossroads of empires, the Ottoman Empire, the Russian Empire, Poland and it fought on both sides in World War I — Ukrainians fighting Ukrainians (schizophrenic indeed). The Nazis were openly welcomed in the western half of the country at the start of World War II and used their alliance with the Germans to slaughter tens of thousands of their neighbors, the Poles, who were their friends during the 20s and 30s.

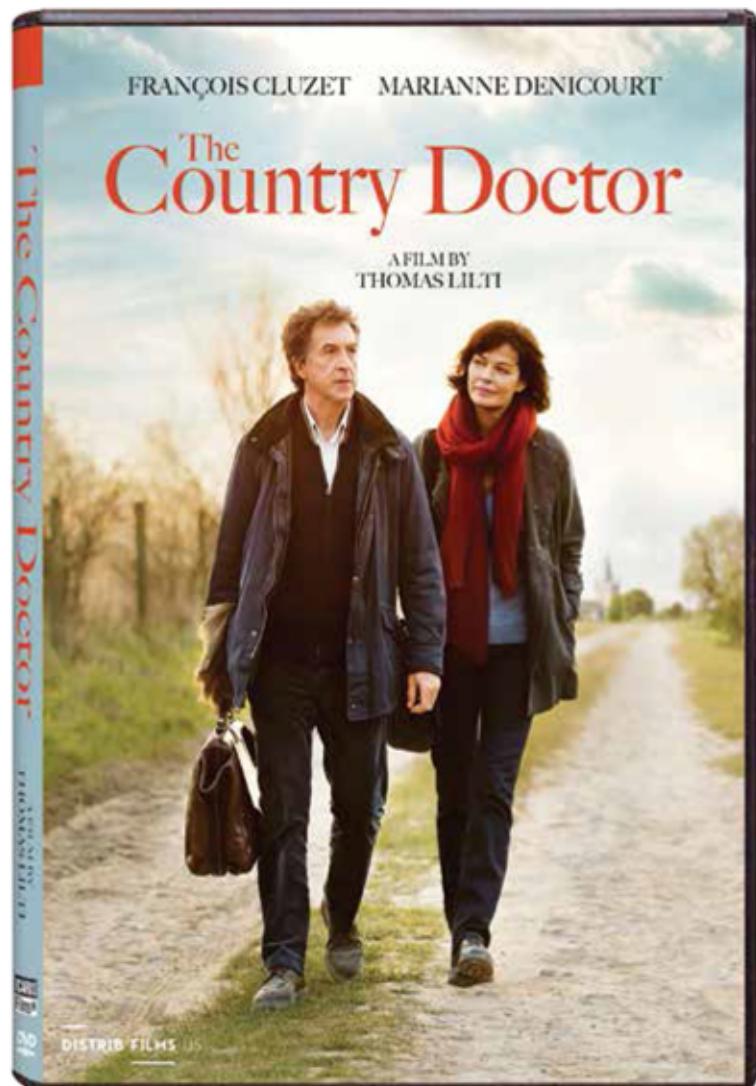

The eastern half of the country joined the Soviets in fighting the Nazis. It was a bloodbath ... in the end as many as eight million Ukrainians died. And then the country was behind the Iron Curtain until the summer of 1990 (forgotten by the West).

Lopantionok's *Ukraine on Fire* delves into the horrors of today's Ukraine. A country divided

**Fire Continued** ... the Russian speaking-half (eastern) was simply annexed by Vladimir Putin (The Crimea), while chaos reigns in the western half (Kiev at the center of it) ... and, under Lopantonok's view, the US and European Union have been just as bad; just as devious in their dealing with the country.

With fellow filmmaker Oliver Stone's help, Lopantonok's *Ukraine on Fire* looks to find an audience to expose the corruption and international intrigues that once again has brought death and destruction to Ukraine.

Stone conducts a series of interviews that include former Ukraine President Viktor Yanukovych (who all but accuses former Vice President Biden of selling his country out), former Interior Minister Vitaliy Zakharchenko and none other than Vladimir Putin.

Bonus features include deleted scenes and documentary filmmaker John Beck Hofmann's 2014 film, *Maidan Massacre* (a look at the February of 2014 massacre in Kiev).

**Detective Continued** which stars Sissy Spacek as the title character, Ginger. This film was between Terrence Malick's *Badlands* (which was her theatrical release after debuting *Prime Cut*) and her signature role of Carrie White in Brian De Palma's 1976 film release of *Carrie*.

Ginger is a "free spirit" who is picked up hitchhiking by a middle aged, recently divorced advertising executive named Joe (Monte Markham), who is attracted to her carefree nature. They hit it off, but Ginger has a secret and her affection for Joe is packed with ulterior motives!

Others in the cast include Susan Oliver, Slim Pickens and Fred Ward (he was just starting out here).

Also in the June 20 mix is writer/director Andy Milligan's 1970 horror flick, *Guru, the Mad Monk*. This hard to find rarity, which was released theatrically by Nova International Productions (which came and went faster than you can say *Guru, the Mad Monk*), stars Neil Flanagan as a 15<sup>th</sup> Century priest named Guru, who is the titular religious figure at an island prison.

He takes pleasure in torturing and killing anyone he takes a disliking to ... and is ably assisted in his crimes by Olga (Jaqueline Webb), a necrophiliac, who fancies herself a vampire, and Igor (honest, Igor), his one-eyed hunchback sidekick (played by Jack Spencer). The movie itself is so bad that it is considered a cult classic (Ed Wood would be proud).

Director Robert Tansey's 1950 film release of *Forbidden Jungle*, starring veteran character actor Don C. Harvey as Tom Burton, a famous big-game hunter, who is hired to find a young boy who has gone missing the jungle. There is a lot of money on the table, but the crusty Burton has a change of heart and covers up the secret of the boy's (played by Robert Cabal) new found home with Trader Kirk (Forrest Taylor) and his adopted daughter, Nita (Alyce Lewis).

Other adventure-themed films in the June 20 mix include *Call of the Forest* (1949, with Robert Lowery, Chief Thundercloud and Ken Curtis), *Men of the Plains* (1936, with Rex Bell and Joan Barclay) and director Harold Daniels' 1953 son of the Count of Monte Cristo tale, *Sword of Venus*, teaming Robert Clarke with Catherine McLeod.

On the Western front on June 20, the Film Detective has the Hoot Gibson 1935 film release of *Frontier Justice* and director John English's 1937 film, *Whistling Bullets*, starring Kermit Maynard as Texas Ranger who is sent to prison in order to infiltrate a gang of thieves.

Rounding out the June 20 release calendar are *Damaged Lives* and *Miracle in Harlem*.

### Effects Continued

their own. They had caught the filmmaking bug!

Included in this group were Tom Savini (he handled the make-up and f/x on *Martin* and had a small role as a drug dealer; and, was part of f/x team on *Dawn of the Dead* ... plus a bit part), Pasquale Buba (bit parts in both *Martin* and *Dawn of the Dead*) and John Harrison (bit part in *Dawn of the Dead*). Another Pittsburgh local, Dusty Nelson, would handle the direction of their opus.

It is a little sketchy after that — whether it actually got any theatrical exposure, or was just screened around here and there. Eventually, those who participated in the production moved onto other things.

It really doesn't matter what happened to *Effects* and its story about a film crew tricked into making a snuff film with themselves as the victims, AGFA — which has been formed to focus on the preservation and promotion of genre films that have slipped through the cracks over the years — has this baby ready for fans to enjoy on Aug. 22 on Blu-ray.

Bonus goodies include a commentary track by John Harrison, Dusty Nelson, and Pasquale Buba, two short films — *UBU* and *Beastie* — and the behind-the-scenes documentary titled *After Effects* (with optional commentary).

The ARR (Asset Rollover Rate) measures the length of time (in days) between a motion picture's initial theatrical release and its debut in the DVD market. Only those films released beginning in January of 1997 are included in the grid. Box Office performance and release dates have been compiled from Daily Variety and Hollywood Reporter charts published each week.
